

PRODUCT DATASHEET

SPC POWER STEERING FLUID

Automotive Specialties

SPC POWER STEERING FLUID is a high quality steering fluid made from premium quality base stocks. It is designed to provide excellent performance and optimum protection for most power steering systems.

BENEFITS

SPC POWER STEERING FLUID provides the following benefits:

- Exhibits good anti-wear properties.
- Exhibits good anti-rust and anti-corrosion properties.
- Protects against seals/ hoses deterioration.
- Stops power steering squeaks.

APPLICATIONS

SPC POWER STEERING FLUID is recommended for complete fluid replacement or top-off in most passenger cars and light duty trucks.

SPC POWER STEERING FLUID can also be used for filling and topping-up of automatic and manual transmissions, transaxles and power steering systems meeting Dexron III, Dexron IIE, Dexron IID and Mercon specifications.

SPC POWER STEERING FLUID is also recommended for on-highway and off-highway use in Allison heavy duty automatic transmissions. Also suitable for flood lubricated rotary vane and screw type air compressors.

TYPICAL CHARACTERISTICS

SPC POWER STEERING FLUID

Viscosity, Kinematic	
at 40 deg C, cSt	38
at 100 deg C, cSt	7.5
Density @ 15 °C, kg/L	0.8450
Viscosity Index	172
Flash Point, COC, deg C	200
Pour Point, deg C	-42

The above figures are typical of current production and do not constitute a specification. Minor variations may occur.
